

All About Flowers Cape Cod - 2027

This guide is designed to help you understand our basic pricing and help you decide to pursue working with us. If you love our work and our prices agree with your plan, the next step is to schedule a phone or in-person **conversation** to discuss your ideas and start planning the design. Once that happens, we can offer you a formal **proposal** outlining a plan to work together, and you can book your date with a deposit of 1/3 its total. Once booked, we continue via email or visits to the studio to **finalize** the design. Changes can be made up to 2 months before the wedding, and **final counts** are due 3 weeks before the wedding. The **final payment** is due 2 weeks before the wedding.

Every wedding we do is customized to the couple's plan and preferences. Our prices below include all of our planning phone calls, any studio visit(s), flowers, containers and vessels, wedding day delivery/transportation, setup, repurposing, any rental retrieval and removal. We also reach out to and collaborate with your venue coordinator and your photographer.

Our goal is to make the floral experience fun and easy and help make your day more beautiful!

***Prices below reflect current market trends with traditional wedding flowers.* We reserve the right to adjust at any time.**
